

Walk-Behind Trench Roller

With its superior traction, the WR 85-33 makes work on cohesive and granular soils easy. The trench compactor is suitable for backfills, foundations, parking lots, and similar applications.

Features

- Bluetooth remote control
- Oil cooler
- Efficient drum pad design
- No overhang

Reversible Plate Compactors

Excellent for compacting medium to deep layers of granular soils. The high speed, balanced design, and hydraulic control system contribute to easy, precise handling on the roughest of surfaces or for spot compaction. Applications include boulders, cobble, gravel, sand, and silt.

Features

- Hydraulic forward/reverse lever
- Low fuel consumption and emissions
- Heavy-duty protective frame
- Impact-resistant steel covers
- High-quality bottom plate
- Optional compaction indicator (RP 400)
